MEMORANDUM FOR: Acting Chief, Plans and Programs Branch

SUBJECT : Report to the President's Foreign  
Intelligence Advisory Board for FY 1973

REFERENCE : Memo from DD/Security (P&M) dtd  
5 Sept 73, same subject

1. In accordance with reference the following items are submitted for this years annual report to the President's Foreign Intelligence Advisory Board:

a. Major developments:

(1) A three year coordinated effort among the entire intelligence community to develop uniform security standards for sensitive compartmented information facilities culminated in the publication of standards effective 30 April 1973. Physical Security Division was the major Office of Security contributor to the standards, specifications and philosophy of the document.

ILLEGIB

(2) The ever present threat of terrorist activity throughout the world increased in tempo during the report period and climaxed in the assassination of three diplomats in Khartoum. In close coordination [redacted] senior security officers visited four terrorist-threatened overseas installations where special surveys were conducted. The entire security posture of each installation was improved to meet the immediate threat.

The support included weapons training for selected personnel. In connection with this problem, a special four week training course was established and ten security officers trained to assist in offsetting the threat at overseas Stations.

(3) As a consequence of more stringent controls on manpower and financial resources, nine (9) security officer positions were scheduled for elimination from overseas posts. Thus far, three (3) positions have been vacated by the incumbents. The remaining slots which have been cut will not be filled once the present incumbents complete <sup>their</sup> ~~the~~ tour of duty.

b. Major accomplishments and failings:

d. The outlook, i.e., upcoming actions of particular importance and plans for the future:

(1) Greater concern for overseas security throughout the intelligence community and the tightened fiscal policy will dictate a demand for more efficient use of available resources. A new approach to the conduct of comprehensive security surveys at overseas Stations and Bases has been initiated which should result in the realization of considerable savings in both professional and clerical manpower.

Chief, Physical Security Division
